the democrats, before they go out of large as the thirtee u original combined, leaving combined, and its popustates

It cannot be denied that Texas is inconveniently large for a state, and the fact that her productive soil is easily capable of supporting thirty millions of people makes it tolerably certain that she s destined to be the most populous state in the Hajon.

But there is apparently an insurmountable obstacle in the way. It is this-the people of Texas are not willing to see their state divided. From the gulf to the western frontier, and from the Rio Grande time educated 150 boys and fif y girls, to the end of the Panhandle, the Texans giving them all a collegiate education. magnificent empire, and they are determined that it shall remain a single Democratic common wealth, with one govern-

ment and one destiny.

It is useress to talk to them about the benefits that would accrue to the Demos cratic party under the new state plan. So long as they are able to control their home effairs they are not going to cut their domain to pieces to insure the success of the national Dampersey. So it is useless to think of the proposed Texas scheme,
